

THE DAY BEFORE THE MOVE

- Defrost and empty out your refrigerator and freezer. Clean the oven. Have vacuum clearer on hand for last minute cleaning.
- Pack personal luggage / items to take with you. E.g. the essential box we mentioned in 1 week from moving day.
- When using **SA Furniture Removals** for packing, remember to leave out essential items for that evening and the following day.
- Unplug and tie up appliance cords.
- Cash on hand for last minute expenses.
- Filling up vehicles, make sure tyres are road worthy e.g. do all-around basic inspections on all vehicles.
- If your house will be empty for a while inform the real estate agent to contact the local security firm in the area, neighbours need to be informed as well.
- Say good – bye to your old neighbours.
- Prepare an action plan for moving day.

NOTES
